Mother treated violently

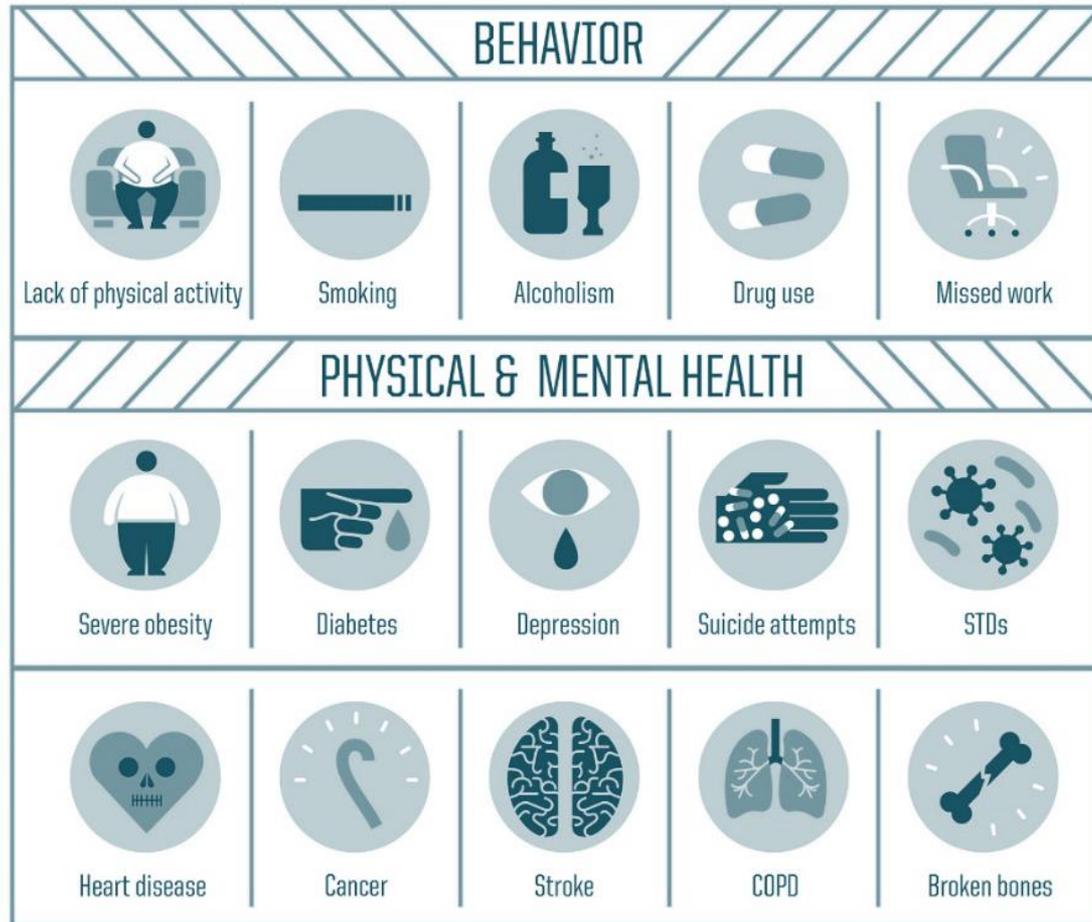

Substance Abuse

Divorce

# ACEs outcomes

# Survey Purpose

- 1. To examine the prevalence and distribution of ACEs in WDG in order to inform future program priorities and planning**
- 2. To examine differences in ACE distribution among priority populations/ socio-demographic variables in order to inform potential targeted interventions**
- 3. To support the collective impact activities of the Guelph-Wellington ACEs Coalition and other community groups (e.g. DuCK, DC Moves)**
- 4. To raise awareness about ACEs in the general population of WDG**
- 5. To support public health's work within a broader health system**

# Survey Content

## Module 1

- ACEs Tool

## Module 2

- Resilience Tool

## Module 3

- Health Outcomes and Behaviours

## Module 4

- Demographics

# Module 1

## • ACEs Tool

### ABUSE

Physical

Emotional

Sexual

### NEGLECT

Physical

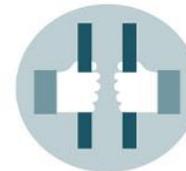

Emotional

### HOUSEHOLD DYSFUNCTION

Mental Illness
